

Recent Reports on Colloidal Silver

Science Digest March 1978

(Silver, the Mightiest Germ Fighter)

Silver kills over 650 disease-causing organisms, and resistant strains fail to develop. Silver is the best all-round germ fighter we have, and it is absolutely non-toxic!

Doctors report that, taken internally, it works against syphilis, cholera, malaria, diabetes, and severe burns.

Richard L Davis executive director of the Silver Institute, which monitors Silver technology in 37 countries, reports the following:-

In four years we've described 87 important new medical uses for Silver;

Karolinska Institute, Sweden.

Dr Bjorn Nordstrom has used Silver in his cancer treatment method. He says his method is simple. It has brought rapid remission of patients given up on by other doctors.

FDA (USA Governing body)

The FDA has stated that because Colloidal Silver is accepted as a pre-1938 Medicine. It may continue to be marketed.

In a letter dated September 13th 1991 from Consumer Safety Officer, Harold Davis

British Medical Journal (Colloidal Preparations of Silver in Pharmacy) February 1923.

Pure Silver is entirely non-irritant. In tests at very high concentrations, it has been shown repeatedly that the rapidly exerted disinfectant action is of considerable therapeutic value.

Two Time Nobel Prize Winner, Dr. Otto Warburg 1933

Stated that: Cancer is caused by the lack of oxygen and the fermentation sugars.

Two Time Nobel Prize Winner, Dr. Linus Pauling Ph D Stated, 'You can trace every sickness, every disease, and every ailment to a mineral deficiency.'

Provo Herald February 13th 1992 (pg. D1)

'Colloidal Silver as a remedy for AIDS.'

Dr Robert Becker Author of 'The Body Electric'

Experiments conclude that Silver works on the full spectrum of pathogens without any side effects or damage to any part of the body, and that Silver was doing something more than killing disease organisms. It was also causing major growth stimulation of injured tissues.

Dr. Becker discovered that all cancer cells, in the presence of Colloidal Silver, change back to normal cells. All strains of pathogens resistant to other antibiotics are killed by Colloidal Silver. 'It kills even antibiotic resistant strains and also works

on fungus infections. It stimulates bone-forming cells, cures the most common stubborn infections of all kinds of bacteria, and stimulates healing in the skin and other soft tissues'. He also noted that healing of damaged tissues reportedly increased in excess of 50% the normal rate. Dr Becker made other astounding observations, amongst them was a correlation between Silver deficiencies and disease or the proper functioning of the immune system. In laboratory tests cancer cells were reverted back to normal, instead of being eliminated.

Positive Silver ions (Colloidal Silver) produced a new type of cell that had youthful characteristics similar to those found in young children's bone marrow. These new cells proliferated very quickly that have the ability to metamorphose into any type of cell the body needs it to become to repair damaged organs, bone or tissue; the effect is as apparent in people over 50 and poses the question as to whether this is a bodily process that is stunted or dormant when there is a deficiency of mineral silver and or positive silver ions

Michael Faraday. Physicist and experimental chemist (1791 - 1867)

Made a small sealed glass vessel of Colloidal Gold. It has been kept till this day in the Museum at The Royal Institute in London, England. When the sealed glass vessel of Colloidal Gold is inspected to-day, utilizing a Tyndall-Faraday Ultra microscope, the tiny particles of gold are still in suspended motion. The motion is a continual random scattering movement. These Colloidal Gold particles have been moving continuously without stopping for approximately 150 years. This is the nature of colloidal particles.

EPA. Environmental Protection Agency

The agency's Poison Control Center reports no toxicity listing for Colloidal Silver, it is therefore considered harmless in any concentration. However all of the silver salts are identified as toxic and even then only resulting with Argyria (bluing of the skin). Therefore any concern should be with silver salts and compounds and NOT COLLOIDAL SILVER

NASA

LEGIONNAIRE'S DISEASE

Country: BRITAIN

Date/period: 1980's

Treatment: Ionization of soft water with silver and copper ions was effective in the prevention and treatment of the disease.

LYME DISEASE

Country: US

Location: Fox Chase Cancer Center - Philadelphia

Physician: Dr Margaret Bayer

Date/period: 1990's

Treatment: Growth and spread of the bacteria *Borrelia burgdorferi* the micro organism causing LYME DISEASE was measurably slowed and even stopped by colloidal silver. (in vitro)
